

Societal Puberty : Zits!

THE ETHICAL WAR

12 Stages of GROWTH... = WE WILL be in different STAGES at different times...
Because we are not Societally Regulated.

The Stages of Anger

- 1 - Violence (1 - 4th Ethic)
- 2 - Talking (4th - 6th Ethic)
- 3 - Action (6th Ethic+)
- 4 - Prevention (7+ Ethic)

The Stages of Change

Scientific Method

- 1 - Education (Study the situation) Assessment
- 2 - Name of The Problem so you KNOW what you are dealing with.
- 3 - How to Prevent it? (4th Ethic and you AMEND your Boundaries)
- 4 - Make a Plan for Prevention (How will you solve this issue from repeating?)
- 5 - Self-Empowerment

Example : Solution

The Situation : Accusing someone of Insanity is not a sound argument because...

Ignorant or Uneducated people labelling Genius as "Insane" or "Crazy.

"If I don't understand them, then they must be crazy." - False Because

If you don't understand them, then you may not be educated enough Or
If you don't understand them, then you may not speak their language Or
If you don't understand them, then you may not be listening...

This False Accusation addresses a person's Logic while disregarding their Language Skills.

In most cases (all cases?) an Accuser of Insanity fails to consider the Genius' Language Skills while also assuming they (The Accuser) could not possibly know less than the Genius.

This is "The Insanity Paradox." Thus, the label "insane" is a reflection on the Accuser's lack of Education and not the Accused.

WHY we are Angry when we are accused of Insanity

When an Ignorant Accuser is too uneducated to tell the difference between Logical Sanity vs. Communication Error, which Ethics are being violated and/or are required for solution?

The Abuser

1. Self-Nourishment
2. Self-Authority
3. Self-Regulation
4. Self-Law
5. Accountability
6. **Equal Footing (Self-Value)**
7. **Listening/Learn**
8. **Assert Voice**
9. **Verbal Regulation**
10. Emotional Fluidity
11. **Logical Navigation**
12. **Energy Regulation**
